Invitation for Online Final Conference

16 September 2021 | 09:00 – 17:00 |

Online: MS TEAMS

The NUTRIMAN project first phase 2018 through 2021 is coming to its end and it is ready to present its interesting results! The final conference will take place as an online event on 16 September 2021, 09:00-17:00 CET.

We cordially invite all stakeholders and interesting parties to attend on the NUTRIMAN closing conference to be held on September 16, 2021 in English language.

For more information: <https://nutriman.net/conference>

Coordinator contact: Edward Someus, 3R-BioPhosphate Ltd.

conference@nutriman.net or <https://nutriman.net/contact>

Event registration: <http://eepurl.com/hAM-Qj>

The NUTRIMAN Final Conference will be held online (MS Teams) and its free of charge. All registering partners will receive a link to the NUTRIMAN Final Conference by e-mail 1-2 days before the event. Deadline for registration: 10 September, 2021

Information on NUTRIMAN project

Agriculture and food industry having a high dependence on resources in their production and striving for long-term sustainability. In this context there is an urgent need to optimise resource use and smooth the transition to a knowledge driven agriculture. The NUTRIMAN is supporting the need to spread knowledge and network information towards agricultural practitioners about the insufficiently exploited N/P recovery innovative research results (technologies, products, practices). The project objective is to improve the exploitation of the N/P nutrient management/recovery potential for the ready for practice cases not sufficiently known by practitioners.

NUTRIMAN is a Nitrogen and Phosphorus nutrient management and nutrient industrial recovery thematic network, which is **compiling practical knowledge ready-for-practice, e.g. sharing advanced research/development results which innovations are close to the market but not yet known by Farmers/Users**. The recovered N/P innovative fertilisers hosted in the [Farmer Platform](#), are being produced from un-exploited resources of organic or secondary raw materials in line with the circular economy model. All the nutrient recovery products and technologies are in full compliance with the new [EU fertilising products regulation EU 2019/1009](#), which will be implemented from July 16, 2022. This conference is focus on summarising, sharing and presenting the three years project results. The approach is 'bottom-up' way and focus on the most urgent needs of farmers. The demand driven innovations for agriculture related to crop production are ready “ready for practice” and commercial market introduction, that is supporting the interest and benefits of the users and farmers.

All these NUTRIMAN web Farmer Platform nutrient recovery product and technology innovations demonstrating full compliance with the new EU Fertilizing Products Regulations EU 2019/1009 already now, which will be implemented from July 16, 2022, and linked to EIP-AGRI and ensure larger willingness to adopt innovations and improve multiplier effects. Highlights for **NUTRIMAN results and impacts**:

- 1) **Collection and distribution of easily accessible practice-oriented knowledge** on the N/P recovery thematic area, including delivering “practice abstracts” in eight languages in the common EIP-AGRI format and audio-visual materials;
- 2) **Conserving the practical knowledge** for the long term ten years beyond the project period >2031 and using the main trusted dissemination channels which farmers consult most often, and also serve education/training purposes;
- 3) **Increasing the flow of practical information between farmers** in Europe in a geographically balanced way, creating spill-overs and taking account of the differences between territories; and
- 4) **Achieving greater user acceptance of collected Farmer Platform solutions** on the NUTRIMAN web www.nutriman.net and a more intensive dissemination of existing knowledge.

The NUTRIMAN project second phase 2021 through 2031 is further expanded and business/investment platform organized to promote the global market commercial entrance of the advanced innovative N/P recovery solutions.

Preliminary conference programme

<p>09:00 – 09:30</p> <p>Key note speakers:</p>	<p>Moderator: Edward Someus</p> <p>About the importance of the nutrient recovery.</p> <p>Mr. Jérémy Pint from EU DG Grow, Research and Innovations. “Exploring the New Fertilising Products Regulation – FPR”</p> <p>Ms. Branwen Miles from Copa and Cogeca, the united voice of farmers and agri-cooperatives in the EU</p>
<p>09:30 – 10:00</p> <p>INTRO</p>	<p>The NUTRIMAN Nitrogen and Phosphorus Thematic network Project and measurable results. Q/A discussion 10 minutes.</p> <p>3R - Edward Someus, Coordinator</p>
<p>10:00 – 11:15</p>	<p>KNOWLEDGE COLLECTION</p> <p>Collection and evaluation of evaluate innovative N, P nutrient recovery technologies and novel N, P fertiliser products and practices, both by experts and by the potential end-users. Q/A discussion 10 minutes.</p>
<p>11:15 – 11:20</p>	<p>Break</p>
<p>11:20 – 12:30</p>	<p>SPREADING KNOWLEDGE</p> <p>Spreading knowledge towards agricultural practitioners about the insufficiently exploited P and N recovery innovative research results (technologies, products and practices) with “ready for practice” performance: EIP-AGRI abstracts and training materials. Q/A discussion 10 minutes.</p>
<p>12:30 – 13:30</p>	<p>Lunch</p>
<p>13:30 – 14:55</p>	<p>DEMONSTRATION AND DISSEMINATION OF KNOWLEDGE</p> <p>Several flash presentations of selected products and technologies. Q/A discussion 10 minutes.</p>
<p>14:55 – 15:00</p>	<p>Break</p>
<p>15:00 – 16:30</p>	<p>NETWORKING ACTIVITIES with CHAMBERS AGRI and POs</p> <p>Networking with Chambers of Agriculture and Producers Organisations: bidirectional interactions with farmers. Identified bottlenecks for adaptation of innovative methods and incorporate the knowledge of farmers. Bottom up approached 2 ways communication operations, actual cases and results.</p> <p>Q/A discussion 10 minutes.</p>
<p>16:30 – 17:00</p>	<p>CLOSING SUMMARY</p>

NUTRIMAN would like to know your opinion!

We also kindly ask you, that before the event, to fill the MINI SURVEY:

<https://nutriman.net/farmer-survey>

(take 1 minute only) at as many as it possible innovative technologies and products:

<https://nutriman.net/farmer-survey/product-mini-survey-categories>

<https://nutriman.net/farmer-survey/technology-mini-survey-categories>

We also encourage you to send your Colleagues and contacts the mini survey link, so we get as many feedback as it is possible.

Thank you for your cooperation!

NUTRIMAN Farmer Platform disclaimer:

The Technology (<https://nutriman.net/farmer-platform/technology>) and Product pages (<https://nutriman.net/farmer-platform/product>) on the NUTRIMAN Farmer Platform (<https://nutriman.net/farmer-platform>) are publishing information and documents solely provided by the vendors of the technologies and products.
